LIBERAL ARTS EDUCATION

LCC International University is a nationally and internationally recognized liberal arts university. Established in 1991, LCC has distinguished itself in the region by offering a different kind of educational experience that better prepares students for success in the 21st century as professionals and global citizens. LCC students study more than just the theories and skills of their major program. They know that in order to be successful they need to understand history, politics and economics. They view literature and the arts as powerful ways of understanding our shared humanity. And they see that a fulfilling life is rooted in the ability to think critically, value diversity and act on their own moral and ethical beliefs. At LCC students find a Christian atmosphere of mutual respect and interaction. Our international faculty encourages students in their learning and shows how to apply knowledge in real-life situations.

“... TECHNOLOGY CEOS ACROSS THE COUNTRY [USA] AGREE THAT LIBERAL ARTS TRAINING – WITH ITS EMPHASIS ON CREATIVITY AND CRITICAL THINKING – IS VITAL TO THE SUCCESS OF THEIR BUSINESS.”
